ORGANIC

Pro-Ven Xcel  
A Concentrated Mixture of  
Proprietary Blended Organic Acids

**Pro-Ven Xcel** is a concentrated aqueous mixture of **Proprietary Blended Organic Acids** that is suitable for use as a probiotic supplement for animal health.

**Recommended Uses:** Pro-Ven Xcel is a concentrated probiotic for any bird aimed at improving the microflora in your bird's gut. Pro-Ven Xcel will shrink your birds' gut and greatly increase water consumption.

**Growers May See:**

- Increased overall animal health
- Increased water consumption
- Better feed conversions
- Up to 35% drier floors
- Decreased aerial ammonia
- Decrease in mortality

**GUARANTEED ANALYSIS**

Contains Non-Plant Food Ingredients

Proprietary Blend of Non-Corrosive Organic Acids  
Water  
pH 3.0

**APPLICATION RATED AND RECOMMENDATIONS FOR (Pro-Ven WT)**

**Probiotic Use:** Thoroughly dissolve 1oz-6oz of Pro-Ven Xcel per gallon of water in the medicator. Then dilute at a 1:128 ratio through water lines. For best results use for 4 continuous days.

# Pro-Ven Xcel

Pro-Ven Xcel is our most powerful and most concentrated probiotic. We use a proprietary blend of three very safe organic acids specifically blended at the perfect ratios to ensure your livestock maximizes growth and well-being. Pro-Ven Xcel was designed to be used during times when disease is present, when feed efficiencies are poor, or when livestock become stressed.

Pro-Ven Xcel can also be used under normal conditions with normal livestock management.

Pro-Ven Xcel works by three different modes of action. First, Pro-Ven Xcel floods the digestive system with good bacteria that ultimately out competes the bad bacteria which may help livestock keep disease presence away. Second, Pro-Ven Xcel tightens the gut to help maximize feed conversion ratios. Third, Pro-Ven Xcel has a high concentration of natural electrolytes, which help livestock in times of stress maximizing water consumption.

# Safety Data Sheet

## Section 1: Identification

Product Identity: Pro-Ven Xcel  
Proventus Farms, LLC  
(Address) 1230 County Road 169 Moulton, AL 35650  
Emergency Phone: 256-962-0844  
Recommended Use: Animal Health: Probiotic Use

## Section 2: Hazard(s) Identification

Do Not Inhale

Long Term Exposure - The effects of long-term low-level exposures to this product have not been determined. Safe handling of this material on a long-term basis should emphasize the avoidance of all effects from repetitive exposures.

## Section 3: Composition/Information on Ingredients

Product Identity: GroMo  
Proventus Farms, LLC  
(Address) 1230 County Road 169  
Emergency Phone: 256-962-0844  
Uses: Animal Health: Probiotic Use  
Ingredients: Organic Composted Humus and other Inert ingredients

## Section 4: First Aid Measures

- Inhalation: Remove to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Call a physician.
- Eye or Skin Contact: Immediately flush eyes with plenty of water for at least 15 minutes. Hold eyelids open during flushing. Call a physician. Wipe or brush off as much material as possible from skin, then follow up with water. Sponge or rinse off remainder using water. Get medical attention if skin irritation occurs.
- Ingestion: If conscious, drink large quantities of water. Do not induce vomiting. Take immediately to a hospital or physician. If vomiting occurs, administer additional water. If unconscious or in convulsions, take immediately to a hospital. Do not attempt to induce vomiting or give anything by mouth to an unconscious person.
- Notes to Physician Including Antidotes: Treat symptomatically.

## Section 5: Fire Fighting Measures

Product Is Not Flammable - However firefighters should wear self-contained positive pressure breathing apparatus and avoid skin contact.

## Section 6: Accidental Release Measures

Waste Deposit Method: Recovered solids or liquids may be sent to a licensed dechlorination or disposed of in a permitted waste management facility.

## Section 7: Handling and Storage

Any person entering either a significant spill area or an unknown concentration of dust should use a NIOSH-approved respirator

## Section 8: Exposure Controls/Personal Protection

Protective Clothing or Equipment: Skin contact should be minimized through use of gloves and suitable long-sleeved clothing selected with regard for use condition exposure potential.  
Work/Hygienic Practices: Wash hands prior to eating, drinking or using rest rooms.

## Section 9: Physical and Chemical Properties

Appearance and odor: Dark brown liquid, musty odor.

Solubility: > 90%

pH: 3.0-4.0

Boiling Point: >200° F

Freezing Point: NA

## Section 10: Stability and Reactivity

Stability: Stable

Conditions to avoid: Extreme heat, extreme cold

Incompatibility: None known

Polymerization: Will not occur

Hazardous Decomposition: None known

## Section 11: Toxicological Information

Skin effects: may cause irritation

Eye effects: may cause irritation

Chronic effects: None

Toxins or carcinogens: None

## Section 12: Disposal Considerations

Disposal of product: Must meet all federal and state regulations upon disposal.  
Check local landfills for rules and regulations.

## Section 13: Transport Information

Not regulated as Hazardous Material.

DOT (USA): Not Hazardous Material.

IMDG: Not Hazardous Material.

IATA: Not Hazardous Goods.

Freight Classification: ANIMAL HEALTH SUPPLEMENT, NOI; LIQUID (NMFC 68140, SUB 6; CLASS 70)

## Section 14: Other Information

The above information should be used as a guideline. The information provided is true to the best of the companies' ability and should not be used as an all-inclusive list of safety standards. Contact Proventus Farms, LLC if more information is requested.
